Education

Degree/Certificate	Institute/Board	CGPA/Percentage	Year
B.Des	Indian Institute of Technology, Guwahati	7.87(Current)	2023-Present
Senior Secondary	Sree Ayyappa Public School (CBSE)	87%	2022
Secondary	Sree Ayyappa Public School (CBSE)	92.4%	2020

Experience

- **Deliver It** — *June 2026 - July 2026*
  UI/UX Design Intern — Noida, India
  - Contributed to **multiple internal tools** including **sales app**, **inventory & warehouse management**, and **admin portal** serving 200+ employees across 6 business verticals.
  - **Optimized workflows** and **designed new additions**, including web-to-mobile adaptations, by **rebuilding navigation**, **interaction patterns**, **cutting redundant steps by 20%.**
  - Iterated design solutions through close collaboration with managers and domain professionals, using quick ideation and feedback.
- **Minus01** — *March 2025 - April 2025*
  Creative Design Intern — Remote
  - Collaborated with the Business Architect to conceptualize and design the **official logo** and set of **promotional materials**, for its flagship event "**Street Jam**" at NEHU Shillong.
  - The launch was supported by the **Ministry of Youth Affairs**, established the brand's presence and **attracted 300+ attendees**.

Projects

- **Asterix | AI Powered Operational Support Ecosystem** — *April 2026 - May 2026*
  Self-guided | Product Design — Case Study
  - Reframed **reactive customer support into a proactive system**, connecting customer signals with operational data that consolidates **5–6 disconnected tools** into **2-3 screens**, enabling teams to detect and resolve issues proactively.
  - Applied **systems thinking** to map the ecosystem and **scoped AI interventions,** defining **where and how AI should act** to reduce fragmentation and surface relevant signals, insights, and evidence for faster decisions within a constrained timeline.
- **Kiwi | AI-Powered Unified Financial Management Platform** — *June 2025 - Aug 2025*
  Self-guided | Product Design — Case Study
  - **Simplified** fragmented financial workflows by unifying essential tools with an **AI co-pilot** for founders after identifying pain points and challenges through **50+ survey** responses and **8 user interviews**.
  - **Refined** AI-driven financial workflows from founders' feedback into clearer, more proactive tools via iterating in **Claude**, cutting **process steps by ~30%.**
- **Markit | Frontend Context Plugin for AI-Assisted Development** — *June 2026*
  Self-guided | MVP Vibe Coding — Case Study
  - IDE extension letting **users mark UI elements on a live page**, giving AI coding agents exact DOM context **instead of vague** text prompts.
  - Used **Claude Code** with custom skills to **build**, **debug**, and iteratively **refine** the workflow, enabling context-aware UI modifications and projecting **~1.5x faster** modification cycles.
- **Google Maps | Case study for Unified mobility** — *Feb 2026 - Mar 2026*
  Prof. Hitesh Sharma | UX Design — Case Study
  - Investigated **systemic information gaps** in Indian mobility, across public transit, last-mile connectivity, local navigation, and fare.
  - Unified information from 5-6 separate apps into Google Maps replacing manual route improvisation with real-time alternatives projected to **reduce trip-planning steps by ~40%**.
- **Roopak | A Product Photography Tool for Handicraft Artisans** — *Nov 2025*
  Prof. Sharmistha Banerjee | UI/UX Design — Case Study
  - AI Powered mobile photography app **helping low-digital-literacy artisans** capture clear, trustworthy product images for digital markets.
  - Conducted research and visual audits to identify image quality issues, using **AI-powered enhancement** to refine captures into clearer, more marketplace-ready product images.

Technical Skills

- **Design:** User Centric Design, User Research, Product Thinking, Wireframing, Feature Mapping, Interface Design, Information Architecture, Systems Thinking, Heuristics Evaluation
- **Software:** Figma, Claude Code, Antigravity, Photoshop, Adobe Aero, Blender*, Wix Studio*, Autodesk Sketchbook
- **AI & Emerging Tech:** Vibe Coding, AI-UX, AI-Prototyping, AI-Assisted Design

**Elementary Proficiency*

Achievements

- **Inter IIT Cultural Meet 2025,** Secured **Gold** in Design Marathon and 4th in Photoshop Battle — *2025*
- **Kriti 2025, Inter Hostel Tech Competition -** Secured **3rd Rank** in Product Dev Module — *2025*

Extracurriculars

- **Design head Techevince (Annual Club Showcase) :** providing visual identity and the official merch, which attracted over **500** participants across multiple tech clubs. — *2024*
- **Manthan 2024 (Inter Hostel Cultural Competition) :** participated in Graffiti Module creating a large scale mural. — *2024-25*
- **Filmmaking challenge :** worked on a short film in 6 hours primarily contributing in camerawork and cinematography, — *2023*
